Nation building & Tribalism can't work together

Qaran dhisid & Qabiil meel ma wada geli karaan

Traditionally, Somalis are socially divided into tribes and each tribe is divided into sub-clans, which starts from a single family that consists of father & his sons not included daughters.

In the past, people were using tribalism as a tool to solve their problem, to defend or fight their enemy, which they can't do as an individual.

Recent years, the tribalism we used on the opposite side, as a tool to destroy our nation. Today, we see that some of the Somali politicians tried to combine tribalism & nation building, but the question is how can exist a nation that built with tribalism? The short answer is; it can exist until two tribes get conflict.

Theoretically, the real nation is the one that consists of land, people, sovereignty, government & authenticity, which needs peace, policy, economy, unity, trust & corporation as to drive on the right way and that is the way we need to rebuild our nation said by

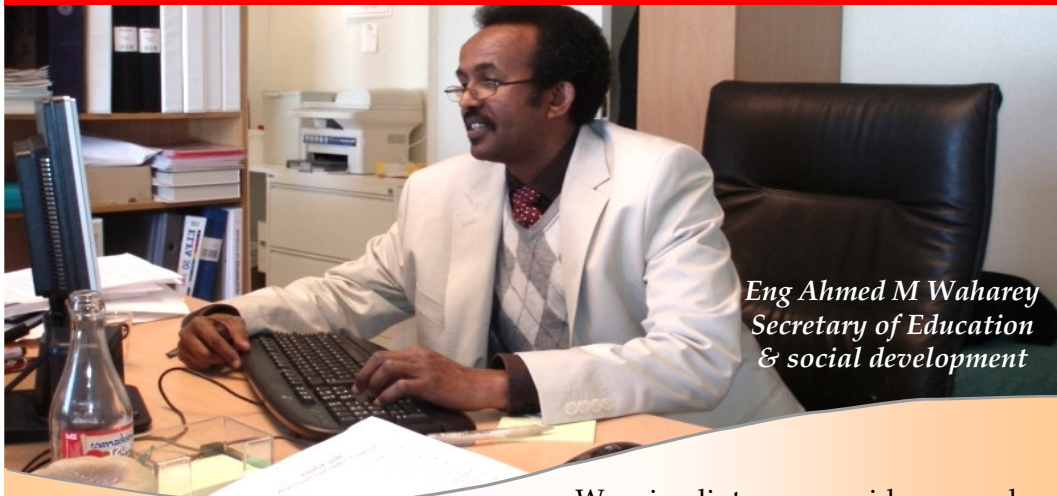

*Miss. Barlin M Adawe - Member of
the SSUP Executive Committee*

Dhaqan ahaan, somaalidu ummad ahaan waxa ay u kala qaybsantahay qabiilo, qabiil walbana waxa u u kala qeybsan yahay jifo-jifo, kasoo unug ahaan ka bilowda qoys ka kooban Aabe & wiilashiisa oo keliya laguma xisaabiyo gabdhihiisa.

Xiligii hore, dadka somaalidu waxay qabiilka u adeegsan jireen nidaam ay isugu ciidamiyaan xiliyada dhibaha ama colaadaha ay la soo darsaan, gaar ahaan kuwa aysan si keli-keli ah isaga xalin karin. Sanadahan dambe, qabiilka waxaa loo adeegsaday dhanka kale, sida nidaam lagu burburiyo qaranka. Maanta, waxanu wada aragnaa siyaasiyiin somaaliyeed oo isku dayday inay isku kanaan qaran-dhisid & qabiil, suaashu waxay tahay intee jiri kara qaran qabiil lagu dhisay? Jawabtu waa inta labo qabiil isku dhacayso.

Qaranka saxda ah waa kan ka kooban dhul, dad, xoriyad, dowlad & aqoonsi, kasoo lagu hirgeliyo nabadgelyo, siyaasad, dhaqaale, midnimo, wadashaqeyn & kalsooni waana habka aan u baahanahay inaan dib ugu dhisno qarankeena somaaliyeed.

During that meeting, the general secretary of the SSUP Mr. Ikar has mentioned and presented a lot of problems that particularly faced by the Somali asylum seekers in Sweden, which have received negative responds from their cases since the last 3 years.

Mr. Ikar has mentioned that all the Swedish political parties except the Social democratic party has proposed a plan to help & give permanent visas to the all asylum seekers registered in Sweden and he raised the question of why the social party is opposing to this plan? Finally, Mr. Ikar requested the social party to accept that plan because, more than a decade we Somalis don't have central government.

Let us create a health nation & a safe environment

Aan abuurno qaran caafimaad qaba & bay'ad badbaadsan

Today, we see that Somalia is in a transitional period, from chaos to a federal system. It is essential to re-assess the quality of the existing local health services at regional & district levels, as to develop a coherent national health strategy for the whole country.

The principal SSUP Health Policy goal is to create a healthy nation and a safe environment. Good health will enhance the long-term economic growth and development of Somalia. Higher standards of living will ensure the physical, mental and social well being of the people of Somalia.

In order to achieve the general goal of health for all Somalis, the SSUP will make efforts to promote and improve the health status of all Somalis through the deliberate structuring of the health sector to make all health services more effective, accessible and affordable, *Said by: -*

Sida muuqata maanta somaaliya waxa ay ku jirtaa xili ku meel gaar ah oo ay kaga baxayso nidaam la'aan uguna gubayso nidaam dawladeed federaali ah. Waa muhiim in dib loo baaro tayada adeegyada caafimaad e ka jira gobolada & degmooyinka si dalka oo dhan logu helo istraatiijiyad caafimaad oo macquul ah.

Hadafka ugu weyn ee qorshaha caafimaadka ee SSUP waa in la abuurro qaran bulshadiisu caafimaad qabto bay'adiisuna ay badbaadsantahay. Caafimaadka wanaagsami waxa uu siyaadin kara kororka dhaqalaha waqtiga-fog & horumarka Somaaliya. Nolosha wanagsan waxay xafidi karta jirka, maskaxda & degenashaha bulshadeena.

Si loo gaaro hadafka guud ee caafimaadka dadka somaaliyeed, SSUP waxay awooda saari dontaa sare u qaadida & wanaajinta xaalada caafimaad ee dadkeeda, iyadoo si degan u qaabeynaysa qeybta caafimaadka si looga dhigo dhamaan adeegyada caafimaadka kuwo tayo leh, oo la wada gaari karo, macquulna ah. *Saas waxa yiri Dr. Maye - Galaha fulinta*
