Re: On The Lot

Dear Mr. Sheikh-Noor:

I am in receipt of your letter dated July 10, 2007 which alleges protectable similarities between the television series "On The Lot" (the "Series") and a project of your creation entitled "The Next American Movie." "On The Lot" was independently created by Steven Spielberg and Mark Burnett and was not based in whole or in part on your idea. Any similarity between the Series and your idea (if, in fact, any exists -- which we do not concede) is pure coincidence. To the best of my knowledge, no one involved with the Series has had any contact with you or has had access to your work, nor do you claim otherwise.

Sincerely,

James R. Sterling, Esq.
